

## Overview

Laboratory Animal Research Centre (LARC) has developed an early emergency operational plan for COVID-19 pandemic situation. Biosafety and biosecurity measures were planned and implemented ahead of time to check the functional requirement to prevent the infection. Identified necessary support for IT, Transport, Procurement, Finance, Admin and Research to make the operations remotely and successfully.

## LARC Activities During Pandemic Situation

### General Activities through online platform

- Procurement of consumables & reagents
- General Admin & Finance activities
- ISO – A2LA Audit

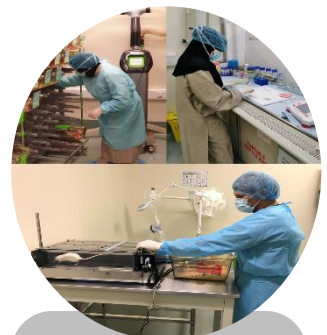

### Students Activities

- Under Graduate Research Project - UREP
- Master's Research Project
- Internal grant Research Project
- Online Summer Internship

### Animal Health Surveillance

- Microbiological Monitoring
- Environmental Monitoring
- Serological analysis
- Water Quality Testing

### Research Project

- QU – PIs Research Project
- QBRI- HBKU Research Project
- SIDRA Research Project
- NPRP Research Project
- In-house Research Project
