LATEST NEWS & CHAIR'S UPDATE

Congratulations to Qatar's healthcare sector!

Qatar has welcomed over 1.4 millions visitors during the FIFA World Cup; during this time authorities set up 100 clinics across the country, which received over 1000 people on an average day. Throughout this time, the health sector managed the increased demand on routine services and continued to deliver world-class healthcare services without disruption.

Thus highlighting the dedication, commitment and professionalism of Qatar's healthcare professionals; QU Health CPD Team are proud and honored to support your professional development.

UPCOMING EVENTS

The QU Health CPD Team have developed a comprehensive schedule of activities for the Spring 2023 schedule. Monitor the Website and Subscribe to the Mailing List for the latest updates.

Please complete the following surveys to add your thoughts on the learning objectives of the upcoming CPD activities:

The team have reviewed participant responses to recent surveys shared with you, and these have informed the upcoming CPD activities that will be offered over the coming months.

[We look forward to welcoming you.](#)

Face-to-Face Workshop

Where Does Vaping Stand in Comparison to Evidence-Based Nicotine Cessation?

ITQAN Sim Center. Mon, Jan 9 (1- 4 PM)

This activity aims to present the disproportionate impact of vaping and discuss the evidence based strategies to support smoking cessation.

Face-to-Face Workshop

Weight Stigmatizing vs Weight Inclusive Healthcare

ITQAN Sim Center. Mon, Jan 30 (1- 4 PM)

This activity aims to enhance understanding of the role of health system in oppressing people with larger bodies, and how to reduce health inequities in the planning and provision of care.
